

2011 Oregon Region-Only Rules

CSM – Conference Spec Miata

General Intent: Allows Miatas conforming to the specifications of International Conference of Sports Car Clubs (ICSCC) aka “Conference” to compete in an Oregon Region class. CSM cars shall run with SCCA definition Spec Miata cars. 2011 Oregon Region CSM rules are derived directly from the ICSCC source located at: <http://www.icsc.com/> under Technical References section.

CSM rules will track ICSCC rules and rule changes **with the exception of the engine claimer rule**. This is specifically disallowed and not incorporated in the SCCA CSM rule set.

NOTE: ICSCC Rules are not necessarily current wrt SCCA GCR references. SCCA can not control ICSCC GCR references. However, all cars entering SCCA events under CSM class rules shall meet 2011 SCCA GCR safety standards for Spec Miata. Note: ICSCC rules permit grandfathering of older cars in some cases wrt newer safety regulations. This grandfathering is expressly ***NOT*** permitted in SCCA Club Racing unless the car is eligible for Vintage, in which case the car is only eligible for Vintage unless updated to current safety standards.
