

2017 Oregon Region-Only Rules

PRO-3

General Intent: Allows BMW's conforming to the current PRO-3 specifications of International Conference of Sports Car Clubs (ICSCC) aka "Conference" to compete in an Oregon Region class. 2017 Oregon Region PRO-3 rules are derived directly from the ICSCC source located at: www.icsccl.com under References section, Competition Rules.

Note: ICSCC rules are not necessarily current with regard to SCCA GCR references. SCCA cannot control ICSCC GCR references. However, all cars entering SCCA events under PRO-3 class rules shall meet applicable 2017 SCCA GCR Section 9 general safety standards as applied to Improved Touring.

ICSCC rules permit grandfathering of older cars in some cases with regard to newer safety regulations. This grandfathering is expressly *NOT* permitted in SCCA Club Racing unless the car is eligible for Vintage, in which case the car is eligible only for Vintage unless updated to current safety standards.
