- E. PADDOCK RESERVATIONS:** Paddock spots are available on first-come first-served basis only. Drivers are requested to minimize urban sprawl and efficiently and considerately use space in the paddock area to allow room for other competitors. Trailers not acting as support vehicles and personal (street legal cars) should be parked away from the paddock area to leave room for competitors and race cars. The Paddock Marshal is charged with enforcing fair use of the paddock area and the Event Chief Steward may exclude and/or eject all drivers and crew associated with any violation.
- F. PREFERRED NUMBERS:** Every effort will be made to honor Conference Preferred Numbers until 14 days prior to the event. II. DRIVER INFORMATION

A. DRIVER ELIGIBILITY: Each driver must be a current member of the SCCA and hold a SCCA Full Competition license or a full SCCA Pro license to participate in this event. If you do not have the proper credentials it is your responsibility to contact the Registrar prior to the event.

B. CAR ELIGIBILITY: Competition is open to all cars conforming to the GCR, as amended.

C. TIMING & SCORING: All cars are required to use fully operational MyLaps/AMB TranX260 or X2 transponders, and the driver is responsible for providing correct information to Timing & Scoring. Make sure your transponder is on and functioning for ALL SESSIONS. Information gathered from data collection systems and/or personal timing systems is unofficial and will not be used by race officials. Cars without working transponders may not receive times.

Efforts will be made to broadcast sector times during all sessions.

D. COURSE: The course will be run clockwise and with chicane. PIR track length with chicane is 1.977 miles.

Please note: There may be a yellow warning light on driver’s right just before turn 10 at the end of the back straight. When this light is steadily lit, it indicates that a standing yellow flag is being displayed at the turn 11 station. When this light is flashing, it indicates that a waving yellow flag is being displayed at the turn 11 station. The yellow flag no-passing zone begins at the light if lit or flashing.

E. BLACK FLAG: Closed (furled) Black Flag and Open Black Flag will be displayed by Starter. Mechanical Black Flag will be displayed at turn 8 and backed up by Starter. For Open Black Flag and Mechanical Black Flag, report immediately to Black Flag station in pit lane immediately west of the pedestrian bridge.

F. SOUND CONTROL: Sound readings are generally taken near the exit of turn 12, driver’s left.

Per PIR policy, no race car engines may be turned on before 8:00 AM for starting and 8:30 AM for revving. Oregon State law requires functioning mufflers to be used at PIR. Sound level measurements will be made on all cars as early as possible during the practice sessions.

PIR HAS A STRICT SOUND/NOISE POLICY PER CITY OF PORTLAND CODE. Cars exceeding a sound level of 102.99 dbA or cars losing mufflers that result in a noise violation will be shown the Mechanical Black Flag immediately. Proceed to the Black Flag station near the entrance to the pit lane – this is mandatory. You are given one opportunity to make modifications or repairs to be below the limit. Repairs or alterations made in the pit or paddock areas to lower the sound level must be approved by the Chief of Tech before re-entering the track. The Operating Steward must be informed when a car returns to the track so that a new sound level reading may be made quickly by the Sound Judge. A second violation will mean a car will be removed from the event for the rest of the day. On a following day, the vehicle in violation must re-tech, show what was done to remedy the violation, pass tech, and be re-checked on course via the sound monitor. If the vehicle fails again, it is disqualified from the entire event. Failure to follow this procedure or failure to enter the pit area

promptly on a Mechanical Black Flag for a sound level violation may result in a disciplinary action (disqualification and/or fine).

Sound readings are posted at the base of the Registration building at lunch and at the close of each day. PIR is located in a City of Portland park and sound levels will at all times be in compliance with the regulations required by the City of Portland, Oregon.

- G. HARDSHIP LAPS:** Competitors are to request hardship laps from the Operating Stewards on the third floor of the infield tower or through Pre-Grid personnel. If approved, the Operating Steward will give you permission for one lap. Present yourself and your car to the Chief of Pre-Grid at least 5 minutes prior to your scheduled lap.
- H. AWARDS:** Trophies for all races will be awarded in accordance with the GCR. Trophies will be presented at the event. SCCA U.S. Majors Tour and Hoosier Racing Tire SCCA Super Tour points will be awarded in accordance with the GCR and these Supplemental Regulations.
